beer, for there is no purer beer brewed and our motto is: "Not how cheap, but how good." Nothing but the Very Best Malt and the Finest Imported Hops, in connection with the purest German distilled water are used in the manufacture of same. It is aged in steel Enamelled Glass Tanks in a sterilized atmosphere; the malt is a food and the hops a tonic; consequently a healthy promoter.

We do not ask you to drink our beer on account of encouraging and fostering a "Home" industry alone, but lay stress on the fact that we have absolutely a superior article.

Lay prejudice aside, try it, and be convinced!

## In Time of Peace.

In the first months of the Russia-Japan war we had a striking example of the necessity for preparation and the early advantage of those who, so to speak, "have shingled their roofs in dry weather." The virtue of preparation has made history and given to us our great men. The individual as well as the nation should be prepared for any emergency. Are you prepared to successfully combat the first cold you take? A cold can be cured much more quickly when treated as soon as it has been contracted and before it becomes settled in the system. Chamberlain's Cough Remedy is famous for its cures of colds and it should be kept on hand ready for instant use. For sale by all druggists. N

## Favors Another Opera House.

Judge Taylor, who came to this city last week from Lawton, O. T. believes that another good opera house would be a paying proposition in San Angelo. This new citizen to San Angelo expressed himself Friday as being very willing to assist in a monetary way, a plan for a stock company to construct a modern equipped opera house that would be first class in every particular.

## \$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Catarrh being a constitutional disease requires a constitutional treatment. Dr. J. C. Chamberlain's Cough Remedy is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing her work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.
